Columbia, SC 29210

August 20, 2023

Chief Vezin,

Thank you for this opportunity to inform the members of The South Carolina Firefighters' Association of the Mattress Firm Fire Department Partnership Program, offered through Mattress Firm's Commercial Sales Group. The importance of restorative sleep on a supportive and comfortable mattress is an enormous factor that impacts a firefighter's performance on the job fighting fires and saving lives.

Mattress Firm assists fire departments across the country to obtain top quality mattresses, platform frames, and encasements to outfit the crew sleeping quarters. We offer wholesale prices that can save a department up to 50 percent off what they would spend on mattresses and accessories in a typical retail store setting. Budget saved on bunk room installations means more budget for on-the-job personal protective equipment for those firefighters.

There are no minimum order quantities with this program. If you are conducting mattress replacement projects of 100 mattresses across 7 stations of a department, or need just 1 mattress, you can tap into the discount pricing of the program. The Top 9 Fire Department Mattress List that follows is what we've seen as popular purchases across the country. It is just a sampling of what we offer. You can search hundreds of mattresses on the MattressFirm.com web site, and if there is a particular mattress that you are interested in, please email me to get the fire department discount price for that mattress.

I come from a family of firefighters going back about 125 years on both coasts. They were my heroes as a boy and helped influence my compassion for others and pride in my community. In 2017, my local firefighters saved my home by stopping the Tubbs Fire about a half a mile away after traveling 15 miles and destroying 5600 structures. The last building that burned coming down the hill was the firehouse. They are just now rebuilding that firehouse after 5 years in portable structures. I am forever indebted to their courageous efforts.

I look forward to working with all the South Carolina fire departments as your dedicated Mattress Firm Sales Specialist. You can reach me at kevin.mcgrath@mfrm.com or 346-718-5127 any time you have questions or would like to obtain a quote for your department mattresses and accessories.

Best regards,

A handwritten signature in black ink, appearing to read "K. McGrath".

Sleepy's Universal Box Spring Foundation

Item # 126025

Overview

The Universal Box Spring is a strong Metal foundation for a quiet night's sleep. The Metal construction is quieter and stronger than all-wood alternatives, making it the perfect choice for your new bed. Available in two height options; five inch low-profile and nine inch high-profile, the Semi Flex will also give you a great foundation for your bed. The design has tailored corners and a neutral color that add to the visual appeal of the unit. It passes all durability tests; including Cornell, Rollator, and Impact, making it a lasting staple in your bedroom for years to come.

Mantua Max Bed Frame

Item # 121823

Maximum strength for queen and king mattresses

Overview

The Mantua Max Bed Frame is designed with high-carbon, ribbed steel side rails to provide maximum support for the mattress and box spring from queen to California king. A wedge-lock style makes the bed frame stronger as more weight is applied. Additional foot clearance is added with the use of our recessed leg design; whether you're using the king bed frame, or queen bed frame the Mantua Max Bed Frame is designed to fit your lifestyle. No tools are needed for the assembly and includes a double center rail for strength and six legs with glides.

Sleepy's Total Encasement Mattress Protector

Item # 140870

Overview

Sleep more soundly knowing your mattress is wrapped in complete, 360-degree security with the Sleepy's Total Encasement Mattress Protector. This six-sided, zippered protector is waterproof and locks out allergens and mildew. Advanced MiteTight™ seams seal out bedbugs and dust mites. Plus, antimicrobial silver is added to prevent odor to keep your bed fresh. You'll find the soft, lightweight performance fabric super breathable, and it won't slide, bunch up, or change the feel of your mattress.
