Attention: Executive Director Charlie King

Re: Letter of Intent

Dear Executive Committee and Association Members:

Please accept this letter as my formal intent to announce my candidacy for Fourth Vice President of the South Carolina State Firefighters' Association in 2021. I have been an active member of the Association for over 35 years, serving on the Advisory Committee for several years and recently served as interim Fourth Vice President from January 2020 through June 2020. These experiences have allowed me to develop an in-depth knowledge of the overall responsibilities of the Executive Committee, as well as the long-standing tradition as it serves the Association and the South Carolina fire service.

I currently serve as Fire Division Captain for Aiken Department of Public Safety and have worked for the City of Aiken for 37 years. I began my career in 1983 as a 21-year old Public Safety Officer and have gained vast experience as I was promoted up through the ranks within the department to my current position to which I was appointed to in 2012. I also served as the past President of the Aiken County Firefighters' Association. My current position requires close interaction with career and volunteer members, budgeting and managing emergency incidents.

With your acceptance of my candidacy, as well as the support of my family and my department, I look forward to the opportunity to travel throughout the state meeting and serving the members of our Association.

Respectfully,

A handwritten signature in blue ink that reads "B Brazier".

Brian J. Brazier, Captain
Aiken Department of Public Safety
