Stewart Konduros & Associates, LLC

Proviso [62.23](#): Funding for PTSD Treatment. *See S.326 for FY2018-19 distribution.*

(SLED: First Responder Treatment) From the funds provided for First Responder Treatment, the State Law Enforcement Division shall distribute fifty percent to the South Carolina Law Enforcement Assistance Program to reimburse law enforcement officers who incur mental injury as a result of a critical incident during the scope of employment for actual out-of-pocket expenses not covered through workers compensation claims and/or other insurance and can also be utilized to provide services through the South Carolina Law Enforcement Assistance Program. The State Law Enforcement Division shall distribute fifty percent to the South Carolina State Firefighters Association for the South Carolina Firefighter Assistance Support Team to reimburse firefighters and emergency medical technicians who incur mental injury as a result of a critical incident during the scope of employment for actual out-of-pocket expenses not covered through workers compensation claims and/or other insurance and can also be utilized to provide services through the South Carolina Firefighter Assistance Support Team. The State Law Enforcement Division shall promulgate any administrative regulations necessary to carry out the provisions of this section.

History: Proviso 62.23 (First Responder Treatment for Post Traumatic Stress Disorder - PTSD) was first adopted in the FY16-17 Appropriations Act and has been adopted in every budget since 2016. The General Assembly has historically funded \$500,000 in nonrecurring funds to SLED to be equally divided between law enforcement and fire/EMT for PTSD treatment. The funds are used to purchase two insurance policies (1- Law Enforcement and 2- Firefighters/Emergency Medical Technicians) to pay for out-of-pocket expenses not covered through workers comp or other insurance and to provide services through the South Carolina Law Enforcement Assistance Program (SCLEAP) and the South Carolina Firefighter Assistance Support Team (SCFAST). Section 38-71-290 requires insurance companies to provide coverage for treatment for PTSD; therefore, costs to an officer, firefighter or EMT has been limited to co-pays and deductibles which are covered by the insurance policies purchased through this program. Additionally, funds can be used to provide PTSD services such as peer training of first responders to develop instructors statewide; provide informational sessions throughout the state on behavioral health, peer support and resources and providing immediate response to first responders involved in critical incidents and in need of assistance. For example, in 2018 there were 10 courses providing training to 113 instructors; 19 orientation sessions statewide where 537 were educated on the PTSD program and its resources; and 82 incidents representing 1,399 contacts to individuals needing help in processing and dealing with fatalities, fires, motor vehicle accidents, suicide, shootings, etc. The program is providing immediate services to first responders who are involved in critical incidents and in need of help.

[Urban search-and-rescue \(US&R\)](#) involves the location, rescue (extrication), and initial medical stabilization of victims trapped in confined spaces. Urban search-and-rescue is considered a "multi-hazard" discipline, as it may be needed for a variety of emergencies or disasters, including

Stewart Konduros & Associates, LLC

earthquakes, hurricanes, storms and tornadoes, floods, dam failures, technological accidents, terrorist activities, and hazardous materials releases. The events may be slow in developing, as in the case of hurricanes, or sudden, as in the case of earthquakes. There is one statewide team and five smaller regional teams (Greenville, Columbia, Pee Dee, Charleston, Hilton Head) consisting of volunteer professionals from fire departments, EMTs, nurses, doctors, K-9 handlers, engineers, and other specialty disciplines. Each member volunteers approximately 240 hours per year with training and logistic missions. The team is supervised by the State Fire Marshal's Office. The US&R equipment is housed at the South Carolina Fire Academy. Many deployments have occurred over the years whereby many lives have been saved. The initial investment for the US&R team was made with Homeland Security grant funds. Since 2004 over \$10 million has been invested in the US&R initiative. Funds have been used to purchase boats, atvs, service trucks, tractor trailers, forklifts, personal protection gear, communications equipment, computers, software, etc. Much of the equipment and gear is in need of replacement. **Request:** The Fire Marshal's Office is requesting \$1,000,000 which the fire service supports. There should be a permanent funding source for the US&R initiative. Requested funds would be used to purchase replacement gear and equipment (see attached spreadsheet).

Pal800 Funding —> Proviso 93.18 located in the Department of Administration's Section of the Budget bill.

- Effective emergency response and management including lifesaving rescue operations are dependent on reliable two way radio communications for law enforcement, the fire service and emergency medical services. State Emergency Management Division plans rely on the Palmetto 800 system, a public/private partnership between state and local governments and Motorola which allows units from across the state to communicate wherever they are needed. The system is funded by fees paid by state and local agencies.
- The proviso was placed in the budget years ago and the funding has been eroded over time.
- **Current funding for the statewide radio proviso is \$1.2 million.** In FY07-08 it was \$5 million which represented a match of \$1 dollar for every \$3 dollars spent for interoperability by state and local responders. Today, the match is approximately 5 cents on the dollar spent. State and local agencies are turning off their radios because of the lack of funding. The radio is a lifeline for many of our smaller communities. **We are requesting an additional \$7.8 million to bring us back to the \$1 dollar match for every \$3 spent.**
- School shootings are a real threat in South Carolina, 100 year floods and storms are becoming annual events, and active shooters are more and more prevalent. Having the ability to call for assistance from neighboring counties and across the state is critical.
 - You need only to look at the Townville Elementary School shooting, Florence Shooting, hurricane evacuations, and recent floods to know that the statewide radio system is critical for a quick response to events and ensuring safety for our citizens and responders.
