

*The South Carolina State Firefighters' Association's Legislative Day 2020 has been canceled due to unforeseen circumstances. The Members of the House of Representatives are being furloughed the same week, March 17-19, 2020 and the SC Senate is taking up the budget, which would significantly limit our ability to discuss fire service legislation. With these reasons the SCSFA Executive Committee and Executive Director have made the decision to cancel Legislative Day 2020 to ensure fiscal responsibility.*

*The Executive Committee and staff are working on an alternate plan to ensure our State Legislators know of our fire service needs for the 2020 session and to thank them for their continued support.*

*Once a decision has been determined the Association will share with you via email and social media.*

*Thank you for your understanding and support.*
